

OPERATION LUCHADOR

Mockumentary

1 x 80' | 2021 | HD | Original French Version with Spanish & English Subtitles

Find out who really defeated Hitler

At the dawn of the Second World War, Nazism was extending its grip over South America. The Golden Angel, a Mexican masked wrestler, was recruited by the Americans to flush out the spies of the Third Reich and put a stop to their nefarious schemes. The Golden Angel's assignments, still classified Top Secret and therefore absent from the history books, even brought him to a pivotal confrontation with Hitler himself.

Inspired by the spirit of classic mockumentaries such as Woody Allen's *ZELIG* and Peter Jackson's *FORGOTTEN SILVER*, the film takes viewers on a unique version of the fight against the Third Reich, joyfully erasing the border between fiction and reality for the viewers who, taken on this unique ride, can't help but ask; did this *really* happen?
