Enigma

One girl's curiosity about the unusual behaviors of the new teacher leads to a romantic, thrilling and dangerous story in her school, making her realize that something in this big world is not just "superstition" but "reality".

Synopsis : At an all-girl school known for a curriculum so intense that it freaks many students out, almost every kid seems to think it's for their bright future and that there's nothing wrong with it. The exception is Fa, a grade 12 student who thinks something suspicious is going on and believes that every case is linked to Ar Jin, the new dorky teacher who has just moved there. Fa has no idea that she's about to be drawn into a very dangerous world full of mystery. She has always thought it's just superstition, but it turns out that everything is true!
